## INSTRUCTIONS FOR COMPLETING CAFO SUPPLEMENTAL FORM

This form shall be completed and submitted with any Request for Authorization (RFA) submitted for authorization to discharge under the Concentrated Animal Feeding Operations (CAFO) General Permit No. NJ0138631. Any RFA submitted for the CAFO GP that does not include this form shall be deemed incomplete.

1. **Applicant(s)/Operating Entity (Business Name)** – Same information entered in RFA-1 Storm, Section 1.
2. **Identification of all Stormwater, Process Wastewater, and Process Generated Wastewater Discharge Locations** – The applicant shall identify all discharges at the facility associated with the confinement of animals. This may include, but is not limited to, stormwater, overflow from watering systems, water from cleaning or flushing of pens, barns, manure pits, animal washwater, egg wash water, washdown from dairy operations, stormwater that has come into contact with final or intermediate products, and other process wastewaters or process generated wastewaters.

**Identification all Discharge Locations to both Surface and Ground Water** – The applicant shall identify all discharge locations at the facility. The applicant should identify each discharge with an alpha numeric identifier (e.g., 001A, 002A) and a description of the location (e.g., “southeast corner of property”). It may be easier for the applicant to attach a map of approximate scale with locations of buildings and other structures at the facility, and identify the discharges on the map. Discharges shall include any discharges to ground water such as infiltration ponds or lagoons.

**Receiving Water Bodies** – For each discharge location identified above (to surface water), the applicant shall give the name (if known) of the receiving water body (e.g., “South Branch of the Raritan River”).

3. **Type and Numbers of Animals in Confinement** – The applicant shall provide an up to date inventory of the types and numbers of animals kept in confinement at the facility and the location(s) of where they are kept. If inventories of animals varies, the applicant should report the maximum number of animals expected to be kept at any time throughout the year.
